

AMIT HASAN

FULL-STACK WEB DEVELOPER

Pabna, Rajshahi, Bangladesh • +880 1778273840 • amitkan4150@gmail.com
LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Full-Stack Web Developer specializing in JavaScript, React, Next.js, Node.js, Express.js, and MongoDB. Experienced in building responsive web applications with modern component architecture, REST APIs, authentication, database integration, and third-party services. Strong focus on clean, maintainable code, responsive UX, debugging, and practical application development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, DaisyUI, Framer Motion, Swiper.js

Backend: Node.js, Express.js, RESTful APIs, API Proxying, Middleware

Database: MongoDB, MongoDB Atlas, Mongoose

Authentication: Better Auth, Google OAuth, JWT, Firebase Authentication

Tools & Deployment: Git, GitHub, Postman, VS Code, Chrome DevTools, Vercel, Netlify

SELECTED PROJECTS

Clay & Crown — Full-Stack E-commerce & Showroom Platform

[Next.js](#) · [Better Auth](#) · [MongoDB](#) · [Swiper.js](#) · [API Proxy](#) · [Vercel](#)

- Built a full-stack ceramic tile e-commerce and showroom platform with responsive product browsing and modern UI architecture.
- Implemented Better Auth with Google OAuth and secure session handling for user authentication.
- Developed responsive product carousels using Swiper.js with a focus on mobile usability and stable layouts.
- Implemented API proxy routing in Next.js to handle server-side API communication while keeping sensitive configuration away from the client.
- Integrated MongoDB for persistent application data and deployed the application on Vercel.

DigiTools Platform — Full-Stack Web Application

[Next.js](#) · [React](#) · [Tailwind CSS](#) · [DaisyUI](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#)

- Developed a responsive digital utility platform using reusable React and Next.js components.
- Designed modular UI sections including navigation, pricing interfaces, interactive content, and responsive layouts.
- Integrated backend APIs and MongoDB to support dynamic application data.

GitHub Issues Tracker — REST API Application

[JavaScript](#) · [GitHub REST API](#) · [HTML5](#) · [Tailwind CSS](#)

- Built a client-side issue tracking interface using the GitHub REST API and asynchronous JavaScript.
- Implemented issue search, filtering, dynamic rendering, loading states, and API error handling.

Job Tracker Application — Frontend Web Application

[JavaScript](#) · [HTML5](#) · [CSS3](#) · [Local Storage](#)

- Built a browser-based job tracking interface for organizing and monitoring application progress.
- Implemented interactive UI state, job status management, and client-side data persistence.

EDUCATION

Diploma in Marine Electrical Engineering — Naval Institute of Technology · Currently Running
Higher Secondary Certificate (HSC) — Ishwardi Government College · 2019

PROFESSIONAL TRAINING

Complete Web Development Course — Programming Hero (2026)

Hands-on training in React, Next.js, REST API development, Node.js, Express.js, MongoDB, authentication, responsive UI development, Git/GitHub, and deployment.
